

9 March 1959

STATINTL

CONTRACT APPROVAL NO. 13
Contract No. SP-1918

Confirming verbal approval given to [redacted] 5 March 1959 STATINTL
you are authorized to procure and/or fabricate retrofit kits for the
installation of a modified fuel vent system in all FOG aircraft thru
LAC line ship #393. In addition, you are authorized to establish a
work force and accomplish the following modification work at Edwards
Air Force Base, California: (1) Installation of dual oxygen system
kits procured in accordance with Contract Approval No. 12 in twenty-
four FOG aircraft thru LAC line ship #390. (2) Installation of fuel
vent system modification kits procured in accordance with this Contract
Approval. The modification effort will begin with input of two air-
craft on 30 March 1959 and two aircraft each following week for a total
of twenty-seven FOG aircraft. No other effort will be expended under
this approval except for those Safety of Flight items necessary to
redeliver the aircraft. A budgetary estimate of [redacted] has been
established for this modification.
